

You have got to be kidding me! Satellite is the best thing to happen to radio. I pay for it because I got tired of hearing the same 40 songs on the radio mixed with the same 20 commercials and lots of talk. Satellite Radio is the medium for music and entertainment and is used in the car. Local content (weather, traffic) coverage is a right not a luxury. If I am willing to pay for it, then let me.

Concerned Citizen,

Michael Tate
